Objective

Enthusiastic IT graduate seeking a Full Stack Developer role to apply programming skills and passion for technology. Committed to learning, growth, and contributing to innovative web development projects.

Experience

July-2024

C Programming Hub

C Programming Hub is a complete resource for mastering C programming, catering to beginners and advanced learners. It provides step-by-step tutorials, real-world code examples, and interactive practice problems to reinforce understanding. With features like an integrated online compiler, community forums for discussions, and certification opportunities, it ensures a holistic learning experience. The platform also offers project ideas and practical guidance to apply skills effectively. Whether you're a student or a professional, C Programming Hub equips you with the knowledge to excel in C programming.

December-2024

Web Based No Due Form Generation by Eliminating the Manual Work

This project aims to streamline the "No Due" form process in higher education institutions through a web-based solution. Students can log in using their register number to request a no due form, provided all fees (tuition, bus, and hostel) are fully paid. If fees are pending, the portal displays the outstanding amount. Upon request, the admin is notified to review and approve the application. Once approved, the system generates the no due form, making it accessible in the student's portal.

Certificates & Achievements

- STEP Certification
- NPTEL Certification in Java Programming by IIT Kharagpur - 52%
- Junior Cybersecurity Analyst Career Path by Cisco Networking Academy
- Accomplished proficiency in Java, Python and C, programming by completing numerous challenges on Hacker Rank, showcasing versatility and expertise in multiple programming languages.
- First prize in quiz, presentation and won overall trophy conducted by Muthayammal College of Engineering.
- Javascript Essentialal by Cisco Networking Academy
- NPTEL Certification in Introduction to Industrial 4.0 and Industrial Internet Of Things- 67%
